To all at the Lifeline Express,  
Community Health Initiative  
and Head Office

We celebrate the 20th anniversary of the Lifeline Express. It is a symbol of hope for the hundreds that have been disabled. As we touch this bench mark, one reflects on the great work that is being done by our team in close co-operation with each other and in many cases with personal inconvenience. This dedication is not only recognised in India but all over the world and success of the Lifeline Express has spawned our Community Health Initiative in Thane District where also great strides have been made.

On this occasion I send each and every member of the Impact family and its leadership my warmest good wishes for their health and efforts and wish them well as they move forward in the service of the poor of our country. You have my assurance of my fullest support and it has been a privilege working with you all.
